Working Experience

NINFA - Co-founder and Head of Software (2022 - present)

- Prototyped, strategized and launched ninfa.io, scaling it to the 3rd largest marketplace globally in the segment by monthly GMV;
- Built the entire software infrastructure from scratch reaching 50k+ users and generating almost $1M of volume;
- Led a team of 5 to ship production code daily, leveraging a wide range of technologies, frameworks, and development tools such as React.js, Next.js, Foundry (for smart contracts), AWS, Google Cloud Platform, Coinbase CDP SDK, and more

Indie app developer (2020 - 2022)

- Designed, developed, and published two mobile apps on the Google Play Store and Apple App Store with 1000+ downloads;
- Anime Song Quiz: a trivia mobile game for Android built in Kotlin;
- Calcisticamente parlando: a companion app for the "Calcisticamente parlando" podcast, with live results of serie A matches. Built with React Native for Android and iOS.
